SEVEN TIMES SIX.

- To bear, to nurse, to rear,
 To watch and then to lose;
 To see my bright ones disappear
 Irawn up like morning dews.
 To bear, to nurse, to rear,
 To watch and then to lose;
 This have I done when God drew near
 Among his own to choose.
- To hear, to heed, to wed,
 And with thy lord depart
 In tears that he, as soon as shed,
 Will let no longer smart.
 To hear, to heed, to wed,
 This while thou didst I amiled,
- For now it was not God who said: "Mother, give me thy child." O fond, O fool, and hilnd,
 To God I gave with lears;
 But when a man like grace would find,
 My soul put by her fears—
 O fond, O fool, and blind,
 God guards in happler apheres;
 That man will guard where he did bind
 Is hope for unknown years.
- To hear, to heed, to wed,
 Fair lot that maldens choose;
 Thy mother's lenderest words are wid,
 Thy face no more she views;
 Thy mother's lot, my dear,
 She doth in naughl accuse,
 Her lot to hear, to purse to rear Her lot to bear, to nurse, to rear,
 To love—and then to lose.

 —Jean Ingelow,

IN MY ENEMY'S HOUSE.

A Story of Life in Russin, Translated from the Russian.

Traveling once near Moscow I chanced to meet N. Petrovitch, an old college he entreated me to accompany him to the sounds. This lasted until daylight, the house of his friend, Baron Staloff, at when the door was suddenly opened and at the conclusion, mathematically, that a place about ten miles distant, adding, a man entered armed with a heavy whip in wind-mills the most serviceable wind by way of persuasion: "Staloff is a fine, open-hearted, generous, hospitable fellow, just such a man as you would like to meet; he told me to bring with me as many friends as possible. Come, we will he there about a week. I can promise you a very agreeable visit."

Although a stranger to the Baron, as I then thought, I yielded to my friend's request, and we took the afternoon train, arriving at Staloff late in the day. The Baroness received us graeiously, regretting that the Baron was unavoidably ausent until dinner.

Punetually at seven o'elock my friend and I entered the magnificent dining room. There was just time for a hasty introduction to the host before we took our seats; we were about twenty at table. "What is the matter with you,"

frightened; have you seen a ghost?" "Frightened! I may well look so indeed! I am frightened. Your fine, generous, open-hearted Baron is my deadly enemy, than whom I would rather encounter a thousand ghosts. I will tell you about it after dinner.

After an uncomfortable dinner I suc-

ceeded in finding an opportunity to speak to Petrovitch in private. "That man and I were once friends," said I, "but the old story, we both admired the same girl. That made the first breach between us. He proposed to settle the matter by the sword. I easily disarmed him. She jilted both of us for it and married Pavlovski, of the dragoons. Two years later the same the ceusus reports of 1870 and 1880 a to the ground.

Dancing in Madagascar.

Just after snnset, and while I was still discussing my dinner, the tum-tums began to beat, and soon the clear space in the middle of the town presented an animated appearance. A sort of illumination was attempted by means of cocoa-nuts filled with bullock's fat, but they did not critics would say. But, when they got give much light and smelled very disagreeably. Mats had been placed under the old tamarind tree for the King and myself, and on repairing thither I found His Majesty already arrived. The people soou formed up for a dance. It was a very enrious sight, and I never before saw any native dance quite like it. They all formed in a circle, and sang, apparently, a verse of a song. They then went in turns into the center of the ring and danced wildly round, flourishing their spears and singing, and then they all joined in a sort of chorus. I faney the solo singing was extempore. The women did not take part in this dance, but all sat together and beat time with their hands, and then at the finish' they came forward with calahashes full of rum and presented them to the men. They danced the same dance three or four times, never omitting the rum at the end. His Majesty kept pressing me also to drink, and I had to take far more "Try and fish it out somehow—hurry of it than I wanted. The women now eane forward and danced, the dance eane forward and danced, the dance consisting of swinging the body back-donble pi ward and forward, all the time singing a the dust. plaintive sort of melody. I could not

elp thinking how well the words from Les Cloches de Corneville-"Inst look at that," &c .- would have suited the action. They looked very picturesque with their bright-colored lambas and wild-looking heads. They have long, woolly hair, which they make stick out from the head in little knobs. After the women had been dancing thus for some it back, thinking it a wash bill. But of me (the men sitting down and beating time), a man most grotesquely painted imped in between them and danced a ew times up and down the middle: then the women screamed and ran away, and the men, jumping up and brandishing their spears in the most threatening manner, rushed forward as if to attack where, perched on heaps of refuse or the new-comer. He at once bolted down employed in its great service of cleaning girl had found its way into Baron Rothshe epresented a lolo (ghost), come to had disappeared there was a general dance of rejoicing, in which both men and women joined, and after that more and women joined, and after that more and women joined past ten, so I to my aut. Irritability of Literary People.

Some how the impression is out that eniuses are not agreeable. We suspect that the imputation of irritability against them is not well founded. But adovcates of the theory that genius is cross, will eite many illustrations to sustain a pro- | light position that now has general acceptance. Carlyle is quoted as a shining example to prove the irritability of genius. But there are some rather large itlnstrations on the other side. There was Longfellow. Was he irritable? Since Goldsmith, Charles Lumb, and Washingtor Irving were ferried over the river of death, a gentler spirit has not been on the earth. The breath of peace was over his life, and the song of peace, and hope, and rising nation was in every norm that rent from his happy pen. Through a long life, often sorely tried by boring visitors, the world has heard no notes may be heard in the spring time. He was never a 'jangled bell out of tune."
His life and his words were sweet music to the world, always inviting to rise to

better things. It was of Longfellow whom Tennyson wrote: "I hold it truth, with him who sings
To one clear harp in divers lones,
That men may rise on stepping stones
Of their dead selves to higher things."
George Eliot was not a turbid spirit—
she saw the bordens of life and knew

how to help others carry them. Genius gave to her the power to analyze the world's experience and uo woman ever had in a higher degree the force of interpenetration, but in all of this she preserved herself for the ages as a sound and healthy being. Imerson had none was carefully preserved from all excesses by what he called "the restraining graco of common sense." We do not mean that he could not feel the stings of wrong, or was beyond the buoyancy of hope, but in all he looked at life in a spirit of perfect repose. He was as serene as the blue sky. The world might griefs were for himself. He was not a the abdominal wall.

climate like that of Southern Europe, man as the theory of gravitation. To are well watered, but have few streams the general acceptance of this idea no one contributed so powerfully as Mr. Darwin, although he contributed to it in a much less exclusive way than the way in which Newton contributed to the acceptance of the theory of gravitation." If we are to judge by emiuent examples, hey will not support the generally ac-

cepted theory that literary people are disagreeable and irritable.—Indianapolis Herald. A Cute Celestial. Recently in Butte, where Chinameu play at faro a good deal, a mild-man-nered heathen slid into a faro game, and after losing a few dollars pulled out a little package of gold dust and laid it on the ace. The ace lost, and the dealer, picking up the package, unfolded it and weighed out the dust, which was \$50 worth. He was about to cast the paper aside when the Celestial motioned to it and asked that it might be given back as it had some washing accounts on it.

The paper was returned and the next night he was there again, betting \$50 in gold dust as before. He put his package carefully on the ace and won. dealer handed ont \$50 and the Chinaman shook his head. "What's the matter, John?"

"You payee allee I bet. One hundred fifty dollar." The dealer laughed contemptnously, but the heathen, unrolling the package, showed a \$100 bill laid in between the

donble piece of paper which contained The dealer looked very cheap, but the Chinaman never moved a musele. He acted as if it was the regular thing to keep a \$100 greenback folded up in his loveliness. One day the Duchess said

gold-dust packages.
"Payit," said the lookout man. "He's got us dead." The same bill was in the paper the night before, but the dealer had handed course this wasn't the Chinaman's fault, girl that she said to the painter:

A Very Wise Bird.

These several colonies and re- order of a supreme mind working sileutly being much more easily fatigued, and jublics have generally an elevated surface, back from the coast, are more or less mountainons, have in the main a smuch an accepted idea of civilized is, perhaps, the closer connection which taste and smell have with nutrition, and the consequent alterations which repeated impressions npon them may have upon the general well-being. A man may pass long hours in a picture gallery or concert room, receiving good, bad or indifferent food without much effect upon digestion or circulation, but a bad odor would quickly excite naseau or sierness. The impressionable natures of southern Italy object to strong perfumes, even though pleasant. The sense of tate differs in one particular from the other three—viz., that the agents which excitathem may remain outside the body, and thus have an action upon it independently of their mere effects upon the sense itself. In gratifying this sense, therefore, we have to consider, not merely what will give the greatest pleasare at the moment, but what will be most satisfactory in its after results. Fortunately, pleasure to the palate generally aids digestion, if obtained in the proper way; but comparatively few people know the art of dining properly themselves, and still fewer know how to give good dinners to their friends.-

A Real Cinderella. A Paris journal has discovered a real Cinderella in the person of the wife of an English millionaire, whose name he withtolds, from delicacy or other causes. About fifteen years ago the painter Hebert was executing his fine portrait of the Duchess of Noailles. He was workng at the time upou an exquisite genre picture, iu whose progress the Duchess took a great interest. It represented a young Italian girl of extraordinary

"It is impossible that such a face should be a mere painter's ideal. The original must sometimes come into your studio. I should like to see her." Tho lady was so charmed with the 'If the rich give so much money to hang up a copy npon their walls, what an orpament the original would be for

to the artist:

The thought which she had thus struck child's collection at Ferrieres, the Duchess took the girl herself, adopted her, and were respectable, but poor, and gladly

yielded up their daughter to the splendid social future which the amiable Duchess engaged to provide for her. Hebert's picture perished in the flames during the fire at the Chateau of Ferrieres, in 1873, but the original had developed into a woman of wonderful beanty. Her guardian kept a jealous eye upon her numerons admirers, determining that if her Cinderella did not become a Princess she should marry into a family of high social distinction. Meanwhile

A QUIET LITTLE GATE.

Jerry Greening's Account of a Transaction with Cards on a Pullman

"Playin' poker is mighty dang'rous bizness, boys," said old Jerry Greening the other night, as he came into the Williamson House barroom.

Some of "the boys" were indulging in a little game of draw poker, with a limit, just to pass away the time. Jndge Ridgway, the champion sucker fisherman of this region, asked Jerry if he would take a hand. "No, thankee," would take a hand. "No, thankee," said the veteran yarn spinner as he helped himself to a "chaw" of Lije Pelton's tobacco; I sin't a takin' in keerd playin' nowaday. Et you fellers 'll lay down yer keer is I'll chuck pennics to see who pays for the drinks all around, an' then I'll tell ye a leetle story 'bout poker playin'."

poker playin'." The cards were laid down, 'the coins were pitched, and "Si" Terwilliger was the unfortunate one. Reinforced with

a tumbler of "gin and tansy," the old man took off his sloneh hat and heavy mustler and prepared to spin the prom-

"Lem'me see," started Jerry, "I guess it were nigh about 'leven year 'go were goin' out West with a party o' It is said that during the passage of eity folks to hunt on th' prairies. We was a trav'lin' in powerful fine style in one o' them pallet keers, when we sec a real nice lookin' feller with a di'mond buzzum-pin come into the keer. He sot down near me, an' bineby ho got the owner of the keer-which I remarked to ney. They were packed in damp seathe time was a nigger—to get a table for weed, and all but one survived the trip him. He got a playin' keerds all 'lone by hisself, and binely 'nother nice lookin' feller same in, an' them two fellers Algeria, it was found that the lutter and the survived to the survived got a-playin'. Arter awhile the two eity fellers that were goin' out West with me took a hand in th' game, an' 'fore we got to Chicargo my two fellers hadn't 'nough spondulix 'round 'em to buy a square drink o' licker, let 'lone 'nough to go furder West. Fin'lly one o' my men-I allers calls 'em my men, becase they was goin' West with me, yer know—said to th' feller with the di'mond buzzumn, 'Let's change the game. I've got jest \$3,000 eash in my grip-sack, that b'longs to my old man in Ohicargo; let's pluy eucher for a chango.' 'Now, I'll tell ye what I'll do,' said th' buzzum-pin man; 'I'll jest bet ye even \$3,000 thet I wicinity discovered him. They immediately tell the the three descriptions are successful to the same of the assistance of a small board—with the evident intention of burying himself alive, when a number of small boys who were playing in the vicinity discovered him. They immediately set about turning him from his hearts the very first time.' 'By darn, I'll do it,' says my man. 'Wall,' sez I,
'I'll hold the stakes.' 'All right,' sez the bnzzum-pin man. During this little conversation my man were shufflin' up the keerds kinder nervous like, so he

had laid 'em down an' told me to keep an eye on 'em while he got his eash. He come back with the money an' handed it to me. Mr. Buzzum-pin got ont his eash, but with what he hed won from my man an' what money he hed he wero short jest \$100. 'Wal,' sez I, 'rather than see yer fun broke np I'll lend ye th' hundred.' So I pulls ont a noie stockin' I hed in my grip-sack an' got outfive twenty-dollar gold pieces. 'Thar.' sez I, 'now get down to biz. river sand. "Wall, they got. Mr. Buzzum-pin took th' keerds in his han's an' drawin' a bowie-knife outen his hip pocket he eut them keerds right in two quicker'n

lightnin'. 'Thar,' sez he, 'I eut th' Jack o' hearts th' fust time, mister, an' I reckon that I'll freeze onto that thar cash. Fork her over, mister,' sez he to me. Jest 'bout that time I see th' pint o' the scheme, an' I laffed tull I putty nigh busted. I gist got down onto the floor an' laffed, an' 'twere close t' five minutes 'fore I got cooled down agin. I were just ready to pay the buzzum-pin man th' \$3,000 cash, an' his face were as smilin' as a man's is when he looks at his fust baby, when all t' oncet my man sez: 'Mr. Greening, I reckon you'll pay that hige pile over t' me.' 'Tho 'gree-ment was that I were t' cut th' jack th' lete hour the correct hed." fust time, sez Buzzin-pin, 'an' I done it, so I'll take the dough, if you please. I cut it, didn't I?' 'Wall, no,' sez my man, pullin' the jack o' heartsonten his ing wil give ye \$50 onten thi stakes an'

Wall, I nid the buzzum-pin man his at keerds, and I've no 'jections to playin' with you, thouch I did see Bill Carkuff agin for the drinks an' then I guess I'll go home, for I've to try a case for salt an' batter' tomorrer mornin' 'fore

'Squire Dewitt," Having "chuckel" for and disposed of his drink, Jerry bide the erowd good night and started for home, and the game of poker was relewed.

Preachers as Enters.

The Evangelist Harrison is a man of inate expression and appearance as to string of fish for a year as I did this make it easy for him to preserve the title of "Boy Preacher," under which he first became famous. A lady at Miss Jean Armour Burns, whose honse he was some time ago entertained noticed the fact that he ate no more than enough for a child. She spoke of this one day at dimer, and said she thought it was an evidence of great spirituality and heavenly minded ness. Her husband, who is a very museular clergyman, and another equally an Englishman of very great wealth, who was visiting the Honse of Noailles, not only fell deeply in love with the beantiful ward, but gained her heart. Although he was not a noble, he was a claimed to be quite as well on in holiness muscular clergyman who happened to be present, both remarked that they saw millionaire. The Dischess consented at as the young evangelist himself, but last to favor his suit, and the English suitor carried off the Italian Cinderella to glorify the Lord by habitually eating as his wife.

Hunting Up a Pedigree.

ROSSIP FOR THE LADIES.

Sweets to the Sweet. "Sweets to the sweet," he softly said,
As bending o'er her lovely head,
Ile proferred her a flower.
"And may I dare to hope with this
You'll give me Just one little kiss
In memory of the hour?"

"You think 'twould be a fair exchange?" Said she, "Ilow boundless is the range Of man's uncurbed conceit!

"I meant not that," quite growing red,
"I only meant—just what I said,
And not the thing you make it."
"Beg parden, then, but still," ahe quoth,
"I must not give it, though you're wroth,
But, may be, you can take it."

The Despondent Girl. A rather singular marriage occurred in this village a short time ago, and one, too, which promises to be a happy one, notwithstanding the fact that it was not even dreamed of by the parties interested an hour before it occurred. A young gentleman met a young lady of his acquaintance, who is employed in one of the hat shops on the street, and in conversation the young lady stated that everything had gone wrong with her at the shop that day and that she had the "blues" terribly; in fact, she was about ready to give up the fight for existence. The young man responded that she could triumph over all her difficulties by marrying him, and this meeting her views the young couple started for the nearest minister and were married. They are now keeping house and living as happily us though they had spent years in love making and trying to find out whether they were adapted to each other .- Middictown (N. Y.) Argus.

The Kind of a Man to Marry.

Let us look at another ease. A young man, receiving a small salary, determines to put aside each week a certain sum as a foundation for the pleasant home he some time hopes to have. It forces him to make many sacritices; he eschews jewelry aml canes, soda water and eigars, and earries an unperfumed handkerchief. While in this semi-rustic plight, and wearing a suit (perfectly pre-served) two seasons old, he calls on a maiden whose company he desires, she looks with scorn at the dowdy dress, and is suddenly otherwise engaged. Discouraging as this may be, he plods on in the chosen path, and finally lays his heart before a quiet maiden who has

I see a man:
I do not see his shabby dress,
I see him in his manliness;
I eee him ax, I see his spade,
I see a mau that God has made.
If such a man before you stand
Give him your heart, give him your hand,
And thenk your Maker for such men,
They make this old earth young again.

The beginning of their wedded life is devoid of much of the splendor that has attended the other pair, but to them there is no rnde awakening to misery and woe. Their affection having never been trifled away, but reserved each for the other, proves a constant joy and ever-present delight.

About Flirts.

but they are not at all like their city cousins. They are more simple and their heads together and determined to that his wife and babes, it least, had a modest in their cruelty, and sometimes cry when refusing a fellow, or when disrobed and, stealthilly as cats, they months from that time he mourning ble, too, the rural flirts do not flirt in- the bed. At a given signal they both tentionally. They are, perhaps, more thekle than flirting. Moreover, when a country girl jilts you, she does it in a country girl jilts you, she does it in a manner that makes you take all the blame upon yourself, and love her more wildered minister such a promiscuous wildly than ever. She has been known to look beseechingly at a young man while dismissing him. Such things are harrowing beyond human endurance. The noise of the proceeding awoke and ought to be prohibited by law. the old lady, who was sleeping in un Sometimes she lives in a sort of seclusion, and eschews male company for months after she has said "No." This is awful in its effect npon the mind of the young man in the case. For, how may he know that the brilliant color hasn't left her cheeks, by way of regret for him? He ordinarily flatters himself that it has, and that she is pining to death for an extra session to reseind the previous resolution. If he is a hopeful young man, he calls the session, and the second "No" tears him all to pieces. He will probably die, or, what is worse, be a bachelor for life. But, if he should live to be as old as the solar system, he will never be able to reconcile the re-

fusal and the pining. The city flirt is more vivacious than the one found in the woods and upon the prairies. She is also, of course, much more polished. She jilts in esthetic style. Her enlure robs flirtation with ther of all prose, and gets it up so high that it eannot reach a man's heart. Her artillery is light, and the impressions she leaves are not felt long, outside of the pocketbook. She may be able to turn things bearing a feeble resemblance to heads, but she has never been known to injure, in the least degree, a genuine masculine heart. She never gets down to bed rock and leaves her victims sorrowing through life in single misery. Her success is reared npon the vernal idiocy of eoxcombs. Fops are her fish. It would seem that kind Heaven has ereated her especially for young men who have rich parents and no brains, and who use mustache wax and hair oil. are dying out is because they eat too and appear to try to kill themselves by much and too fast. Better that the gods leve you, and you go softly out some still morrow, in search of the shore from whose blossoming borders no leaf or bud ever comes drifting across the backward tide, better and safer .- Detroit Free Press.

They Hugged Him. Two sprightly and beautiful young halies were visiting their cousin, another sprightly and beautiful young lady, who, like her guests, was of that happy age that turns everything into fun and merriment. They were fond of practical jokes, and were constantly playing all sorts of pranks with each

concluded not to disturb the household. so they quietly stepped into their room rough the low, open window. In about half an hour after they had

left for the party a young Methodist minister ealled at the house where they were staying and craved a night's lodging, which of course was granted. As ministers always have the best of every thing, the old lady put him to sleep in the best room, and the young lady (Faunie) who had not gone to the party, was intrusted with the dnty of sitting up for the absentones and of informing them of the change of rooms. She took up her post in the parlor, and, as the night was sultry, she departed on an excursion to the land of dreams.

We will now return to the young ladies who had gone to their room through the window. By the dim light of the moonbeams, as they struggled through the curtains, the young ladies were enabled to descry the outlines of Fannic (as they supposed) ensconced in the middle of the bed. They saw more -- to wit: a pair of boots. The truth The flirt flourishes most in cities. To flashed upon them at once. They saw hard working man has enjed himself be sure, there are flirts in the country, it all. Fannie had set them in the room for years to keep up a sma life insurance to give them a good scare. > adjoining room. She comprehended the situation in a moment, and, rushing to the room, she opened the door and ex-

> "Gracions, girls, it is a man! It is a man, sure enough!" There was one prolonged, consolidated scream, a flash of muslin through the

door, and all was over. The best of the joke is that the minister took the whole thing in curnest. He would listen to no apologies the old lady could make for the girls. He would hear no excuse, but solemnly folded his official robes about him and silently glided away.

Why Americans Die, "When we learn that in the year 1880 the death rate in New York was 26.48 to 1,000 inhabitants, that in the year 1881 the rate was 31.08 per 1,000, while in London for the same period the average death rate was 22.14, and that fortyeight eities in the United States during the same time exceeded the death rate of New York, 'it becomes us to ask, Why are Americans dying out?' In 1881, in this city, there were 12,491 more deaths than births, and in the months of January and Februray, 1882, the deaths exceeded the births by 2,446. In London, during the year 1880, there were 81,128 deaths and 132,128 births, or 51,-047 more births than deaths. I have eonsidered these facts worthy of close attention. One reason why Americans smoking cigarettes. After all, flirts closely the habits of Americans would may be necessary; at any rate they are | think that their object in life was to eat, in demand. They are somewhat orna- Americans can't converse five minutes mental and presnmptuous. It is agreed | without something to eat. Another reathat they are rarely domesticated satis- son why Americans are dying out is befactorily. They have all the emotions and magnetism of femininity without its worth and graces. They are the Roman candles of society, and the shooting-stars in the sky of courtship. becoming a nation of gamblers. This spirit of gambling is undermining all honest industries. Another reason is disappointed ambition. We are a nation of rivals. Each man desires to lead his fellows. A Republic has many blessings, but it possesses one disadvantagethe failure to satisfy the grasping ambition of its teeming millions. The last reason for Americans dying out is their false standard of success, money. If a man in Europe fails in business, or loses had, I suspect, the most uncertain of all | his money by some unexpected calamity, passions under the sun, a lover who his friends will still remain true to him, probably had not written to her for the as a rule. But in this country let a man long eternity of twenty-four hours; lose his fortune by adversity, and he is hence the flit of a shadow across the quickly forgotten. We should not gauge

> Leaf from the Czar's Dlary. Got up at 7 a. m. and ordered my ettish bangs, while her blue on the stairs, but I did not step on of Prussic acid that I was afraid to drink

In the whole range of follies which fashion ordains, there is not one so senseless, or of such magnitude, as the present style of conducting funerals. At the best they are indelieate and in gossip, the shrugs and the rest. So bad taste. Often they are barbarons. Nearly forty said in my troubled heart—but so lo The immediate mourners are expected surface of the mat none might hear—to her of the dim to abandon themselves to a luxury of uncultivated. ples and mischief-lurking blue eyes, hopeless grief. Anything like philolaugh on, my rosy unknown, for my soulsophical serenity or Christian fortitude hears no sweeter music nuder the blue will expose them at once to suspicion, arch that is said to shut heaven from everything is made as harrowing as our upward gaze; munch caramels to ossible. In a few days, to be sure, the your heart's content, though the world tience of their friends will give out. frown its most. Time enough to draw down the corners of your kissable month t control themselves and attend to into forlorn little puckers when the the business of their lives like other

grieve you; time enough to hush the anthing like common sense and praring of your merry laughter when the dese is regarded as heartlessness. The unfriendly winters shall "pelt you with | mor atter thoughtlessuess is only consnow-balls," instead of the pink and sideed as a prof of the worth of the white roses the spring time tosses you dead person and the sincerity of his mourers. In this way has come about a fashon of funerals so disproportionately apensive hat no sane person but an undataker wold attempt to justify them. Tundreds of dollars are spent most part cruel wasted. The only possible result is) make a show which an expression of roper respect. Such eight to the square mile. exhibitions pleas none but vnlgar Any marked falling off in the supply full. If there is slisplay, he is uncont the animal's appetite is noticed. great loss, no ontal sight or sound can like rural population is declining, yet reach him. What omfort is it to a more than one-half the total population Two of the young ladies attended at party, and did not get home until 11:30 o'clock at night. As it was late, they better that that oney should be spent

> who needed it-hr mother or her sister? It may be saidhat a very rich man, at any rate, shouldot be criticised for spending money lavlily at such a time, but this is a mistal. He has a plain duty in the matter wieh he should not tisregard. He has nright to sustain a fashion which may la burden to his poor ueighbor. Beente grief is imprudent, and error can ne count, the custom of good people slidd protect them and not impose on the helplessness. It may be a little thingor a rich man to pay tive hundred dollarfor the burying of his dead child, but is a cruel thing for him to make the por man next door say in the bitterness of nourning, "He loved his child no bett than I loved mine: now they are dea there shall be no difference between thm." Muny a clothes, the monument ad the undertaker's hill will have exhausted the last

dollar of it. The influence of this ashion on the lower classes of sodety every observer knows to be simply ilestructive. The olored people in prticular go to great lengths in this direction. With an extreme desire to do s white people do, and much impressibity of feeling, they spend all they have nd lay heavy burdens of debt on therselves which they are unable to earry, and then, in turn, as paupers, come on he community at large. It is the dutys: a good citizen to use his influence mainst this folly, and while it is hard to ay down an exact rule, it may be said that in regard to the fitness of things, few funerals should cost more altogether han a hundred

dollars. - Indianapolis Icrald. Distance of the Snr and Moon.

There are several metrods of determining the sun's distance from the earth, some of which it would be difficult to explain satisfactorily to the reader not already familiar with the subject of the terms used. The refined investigations of modern science, says Professor Newcomb, have brought to light other methods, by at least two of which we may hope, ultimately, to attain a greater degree of accuracy than we can by measuring parallaxes. Of these two, one depends on the gravitating force of the snu npon the moon, and the other upon the velocity of light. And the same author says, in regard to measuring the distance of the sun by the velocity of light: "There is an extraordinary beauty in this method of measuring the sun's distance, arising from the contrast between the simplicity of the principle which alone the principle can be applied. could send to and fro between the snn ecuting the operation. determine, experimentally, about how grass-sonp with great avidity. fast light travels, and to find from astronomical phenomena how long it takes to come from the sun to the earth. In 1862 Foucault found by experiment that light traveled about 298,000 kilimeters, or 185,200 miles per second. In 1874 Corun found by a different series of experiments a velocity of 300,400 kilometers per second. In 1879 Ensign A. A. Michelson, U. S. Navy, found the velocity to be 299,940 kilometers per second. The result of Michelson's is far more reliable than either of the preceeding ones. Combining them all, Professor D. P. Todd, in 1880, concluded the most probable value of the velocity to be 299,920 kilometers, or 186,360 miles per second. Now, we know from the phenomena of aberration that light passes from the snn to the earth in about 498 seconds. The product of these two numbers gives the distance of the sun in miles. * * These two methods of determining the distance of the snn may fairly be regarded as equal in accuracy to that by transits of Venns when they are employed in the best manner.

The Battle of Austerlitz. At the great battle of Austerlitz, three Emperors commanded, namely, Alexander of Russia, Fraucis of Austria, and

anthority for the following item concerning a prolific flock of sheep: "In a well-known flock in the eastern counties forty ewes have this season brought the extraordinary number of 130 lambs. thirty of the sheep having three lambs each and the others four each. The voungsters are all nice, strong lambs. The flock is of the pure-bred, black-

faced kind." In snoeing flat-footed horses, if the animal has a spongy toe it may be cut off to the proper length. After this is done the horse will travel easier than before. If, on the other hand, there is a hard shell around the hoof, it is best to ent as little as possible as to the sole. If the sole of the foot is thick let the shoe bear on the sole and hoof equally,

ONE of the ancieut grist mills of Pompeii, which has been nnearthed, had four run of stones, conical shaped with a stone hopper receiving the grain, turned by the upper stone, which was the runner. The stones were hard, porons and black, similar to some in use at Naples at the present time for the manufacture of macaroni. The stones were turned by two levers, one on each side, the motive power, of course, being

Between 1846 and 1880 there has been an enormous increase in the imports of grain and flour into Great Britain. In 1846 the imports of grain and flour amounted to seventeen pounds weight per head of population; in 1855 key had risen to seventy pounds per head; and in 1865 to ninety-three pounds weight per head of population. Finally, in 1880, the imports of grain and flour amounted to 195 pounds weight per head of population of the United Kingdom.

When wheat is not very rich in gluten, and the flour is therefore wanting in body, an addition of two to three per neither injurious to man uor does it deteriorate the flavor, but this proportion must not be exceeded. Egyptian beans are the most suitable for this object. In France this admixture is quite generally

Since last June, M. Pasteur has vaceinated 90,000 head of stock, among which were 10,000 oxen, cows and horses, In every instance his process was successful; the animals vaccinated escaped the charbon malady, while those non-vaccinated fell victims to that plagne. M. Pasteur (and others have corroborated his view), lays down that the effects of his preservative vaccine do and the profoundness of the methods by not last longer than eight months, so that vaccination must be repeated annually, Suppose we had a messenger whom we and that April is the best month for ex-

and the earth, and who could tell on his M. Goffart states that his corn fodder return, exactly how long it took him to for ensilaging is ent in the field by woperform his journey; suppose also we men, with sickles. These Freueh women knew the exact rate of speed at which have great skill in the use of that imhe traveled. light. It has been found practicable to wasted. Cattle will drink that kind of AN ENGLISH farmer, in the matter of rearing calves, writes: After weaning, at the end of a week or so, the ealf ean feed very well upon skimmed milk. Many substitutes for milk have been experi mented with, including hav tea and lineeed jelly. Hay tea is made by pouring boiling water over fine sweet hay, and inclosing the vessel, when in the course of a couple of hours a stong liquid is produced. It should be given of the warmth of the natural milk of the cow. Linseed jelly is made by putting one quart of seed to six of water, and allowing it to boil for ten minutes. Nothing is better than skimmed milk thickened with linseed. Some very successful calf-rearers use a mixture of linseed and ground wheat to thicken with, in the proportion of two bushels f linseed to one of wheat.

It has been a matter of surprise to American farmers that English bacen sold so much higher in London than that from America. An English contemporary explains this matter. West Pigs weighing from seventy to ninety pounds make such bacon as is best fitted hogs are used in the first-class trade,

its earliness highly recommends it to the whole country. It has another desirable

quality-it stands up well, does not easily blow down; unusually grows eleven and twelve feet high with When planted between the 1st and 10th of May, the seed almost invariably ripens, thus giving one the advantage of a double crop in one year from one planting, some twenty or twenty-five bushels of seed, and a hundred and fifty or more gallons of fine syrup per acre, that is, if it is skillfully handled. All THERE are npwards of 1,000,000 agri- kinds of farm stock are fond of the seed; when ground and mixed with bran it makes a good heavy feed for horses; hens are very fond of the seed and I believ. it makes them produce eggs more abundantly than almost any other kind of grain. If there is one thing in alt the world that allines the average boy and delights people generally, it is a well managed and thoroughly equipped circus. The children of a city or town seem to know of its coming by a kind of Intuition, and prepare accordingly. The pennies, hilberto dropped into the missionary-box with conscientious regularity, are now faithfully diverted into an old coffee-pot in the celiar corner for prospective use, and scrap-metal, old paper, etc., do substantial service in the way of securing the amount of an admission fee. But for all that, we believe fully in the properly conducted circus as a means of amusement and diversion, and are happy to state the gratifying fact that the circus—or rather its proprietors and employex—experimentally believe in St. Jacons Oll, the Great Pain Reliever of the age. Hou. P. T. Barnum's Greatest Show on Earth and Coop's Monster Show can be taken as typical cases. The former says: "We take great pleasure in stating that St. Jacons Oll is in use by many ring artists now engaged with P. T. Barnum's Greatest Show on Earth, united with the Great London Circus, Sanger's Royal British Mirnagerie and the International Alided Shows. Front its happy effect upon those who have occasion to employ it, we have no itesitation in pronometing St. Jacons Oll its a wonderfully efficacious in subduing pain.

(Signed) Barnum, Baller & Huttminson."

The Press Agent of Coup's Munster Show says: "In cases of rheumatism or complaints of that kindeutrarists know how to cure themselves very specifity. St. Jacons Oll is a very popular remedy among our people for rheomatic pains, and as long as they can get it they won't staffer much."

Mr. Frank I. Frayne says: "I have auffered lerribly from rheumatism in my right shoulder and arm, and at the same time I had severe pains in my chest. Sometime since I read something in a newspaper about the remarkable cures of St. Jacons Oll, and I thought I would try that remedy. I tell you I am mighty glad I did, for after using one or two bottles of cleans it ready for Market.
